

III. AMENDMENTS TO THE SPECIFICATION

On Page 10, Paragraph 3:

Fig. 2C is an example in which a DC power supply 24-28 and a resistor 26 are provided to the electrically conductive path 24 as shown in the embodiment of Fig. 1. Fig. 2D is an example in which an AC power supply 32 as an auxiliary power supply and a resistor 26 are provided to the electrically conductive path 24.
